

LAPSE is an extensive modular programme that transcends the classic concept of waiting area seating. The broad range of elements and accessories available and the special design of the modules allows for the configuration of endless compositions that transform waiting areas into collaborative spaces for interaction. As well as waiting or resting, they lend themselves to holding meetings or relaxed teamwork. Formally, the LAPSE programme stands out for the fluid lines of the different elements and the flat backrests, which are rounded at their base to form original compositions that allow objects to be placed on them or comfortably drape an arm over them while conversing. The collection offers a wide range of seating modules, side units and connectivity accessories that can be combined to adapt to the needs of each space.

DESIGNER: Carlos Tíscar

Carlos Tíscar (1964). Graduated at the School of Applied Arts in Valencia (1982), in the field of Industrial Design. Two years later, he moved to Italy to study at the Scuola Politecnica di Design in Milan. He began to make a career as a member of the industrial design group Factoría (1987) and as a partner of Gesto Design Management (1991). Since 1993 he manages his own studio. He has given industrial design lessons at some schools and public institutions: Barreira (Valencia), AIMME (Paterna), Eset CEU (Alfara Del Patriarca) and EASD (Valencia). He has given conferences on his work both in Spain and abroad and among the many prizes awarded, the Best of NeoCon Innovation Award (Chicago 2012) and the Good Design Award (Chicago 2013), undoubtedly stand out. He was president of the ADCV (Designer 's Association of the Valencian Region).
