

FOREST 1,5m

By **RESTEVE**

Ramón Esteve has designed for Vondom FOREST, a backlit piece shaped after a geometric abstraction of a Christmas tree.

Its clean, depurated lines make FOREST a sober, timeless complement. The interior lighting, with a RGB LED bulb system, creates a surrounding atmosphere due to the use of light and color, which can be adjusted according to the moment and the ambiance desired.

FOREST is the result of a severe formal synthesis. Its high-quality material makes this piece lightweight as well as resistant. It is perfect for both indoor and outdoor spaces.

A magic tree that invites you to be immersed in the pure, beauty nature, together with your beloved ones, into this "illuminated forest" for such a special occasion as Christmas.
