About

The Light My Table lighting garland is a feelgood enhancer which literally brings people closer together under a little roof of light. Light My Table has a huge impact on the visual space above your dining table and can consequently create a cosy atmosphere in the blink of an eye. Because of its simple design, Light My Table easily blends into any style and turns your dining area into an inviting place for long wining and dining sessions. Light My Table is fit for both indoor and outdoor use, allowing you to add a welcoming and warm touch to your dining area all year round.

Materials & care

- Frame: durable powder coated steel, string of strong and durable neoprene.
- Clean with a moist towel.
- Regarding outdoor use, it is advised to store Light My Table inside during heavy rainfall.
- Once the lamps are fixated, they should not be reallocated.

Assembly

- Light My Table is designed by Studiomie and comes in a self-assembly kit.
- The assembly process is simple and Light My Table can easily be clamped onto your table.
- A piece of leather between the clip and tabletop prevents damage when tightening.
- The table top should not be thicker than 6 cm. Because of the flexible string, the lighting garland can be clamped onto tables ranging from 200 cm to 300 cm.
- Light My Table comes with 9 LED lamps and all parts (fittings, cable, plug) are CE-certified.
